

Alumni Report 2018-19 to 2022-23

The Ilahia Alumni Association stands as a vibrant network, uniting graduates and former students, fostering enduring connections beyond the academic realm. Committed to preserving the spirit of companionship and lifelong bonds forged during students' tenure at Ilahia College of Arts & Science, the association serves as a platform for alumni to engage, reconnect, and contribute meaningfully to the alma mater's growth and development. Through a series of events, initiatives, and collaborative endeavors, the Alumni Association cultivates a robust support system, offering mentorship, career guidance, and opportunities for professional networking. This association stands as a proof to the enduring legacy of Ilahia College of Arts & Science, promoting a sense of pride, belonging, and continued involvement among its esteemed alumni.

Alumni report 2022-2023

Report on "SVC Scholarship"

Name of the Event	SVC Scholarship
Guest	Mr.SC Shankar
Date and Time	12 September 2022
Venue or Platform	College Open Auditorium

Alumni networks often have a strong connection with the institution and can contribute to fund raising efforts or sponsor initiatives that enhance the quality of education and infrastructure. They can play a role in mobilizing resources for research projects, scholarships, or infrastructure development. Their perspectives and contributions are essential in validating the institution's commitment to quality education and continuous improvement.

They also play a significant role in contributing scholarships to deserving students. One of our alumni Mr. S C Shankar (Department of computer science 2000 admission)is now a platform engineer at Texas, US. He had put forward a scholarship proposal particularly for computer science department students (UG, PG). Now it is regarded as SVC Scholarship and the amount is Rs.100000 (One Lakh) with a distribution of 50000 for graduates, 45000 for postgraduates and Rs.5000 for Department activities of computer science. Later our management, Principal and HoD of computer science approved the proposal.

The launching ceremony of SVC scholarship was held on 12 April 2022 through Google meet platform. Mr. S C Shankar was the Chief Guest in 2022 ICAS conducted an orientation programme for the first year students, on that day Mr. Shankar was chaired as a chief guest and he himself distributed the scholarship to the concerned students. There are 4 UG students

received SVC Scholarship on that day. There is no PG admission on that year. Therefore the PG scholarship amount is distributed to the next year UG students which is reflected in their semester fee. The Principal proudly launched the scholarship to the students. Mr. Shankar promised to move forward with this scholarship from 2022 onwards. 2023 Scholarship was distributed on 7 February 2024. In 2024, This Scholarship was distributed to 4 UG & 3 PG students.

Total scholarship amount will be Rs.1,00,000.00 (One Lakh Indian Rupees Only) with a distribution proposal as follows:

Graduate Scholarship (Total 4 students)

Based on their academic excellence	
BCA Topper	15,000.00
BCA 2nd Topper	10,000.00

Based on economic background and academic performance	
Topper	15,000.00
2nd Topper	10,000.00

Post Graduate Scholarship (Total 3 students)	
College Topper	20,000.00
College 2nd Topper	15,000.00
College 3rd Topper	10,000.00

Donation for department activities	5,000.00
------------------------------------	----------

ICAS is greatly honored to be benefited to receive this scholarship from Mr. Shankar. He promised to continue this scholarship for future. Moreover he offered job opportunities in US for the pass-out students of ICAS.

It is ICAS's privilege that no other colleges around this location do receive this kind of scholarship from Alumni. This can be considered as the greatest institutional distinctiveness of

our college. ICAS is much indebted to Mr. Shankar who is an inspiration to all other Alumni also. This motivation from the side of Shankar helps to showcase the actual value of certain educational products.
